## COURSE DESCRIPTIONS

### 120-Hour On-Site TEFL Certification

We offer a 120-hour, four-week, residential certification course that provides for a high-quality practical training. During the training, there are daily study sessions in which trainees learn teaching methodology, classroom management, how to teach accent reduction and interesting grammar classes. The greater amount of the time is spent on preparing, teaching, and evaluating classes. The teaching-practice students are both visitors and immigrants to an English-speaking country or locals in non-English-speaking areas of the world.

### 120-Hour Combined TEFL Certification

Our Combined TEFL/TESOL course connects on-line with on-site training. First, you study the principles and theories of TEFL/TESOL on line at your own pace under the guidance of a tutor. After completion of the theory segment, you'll attend one of our training centers for seven days of practical teaching of actual EFL/ESL students.

This course is ideal for those people who cannot participate in the on-site TEFL/TESOL course due to work or other study. You still get the actual teaching practice (something a lot of schools prefer or even want to see, especially when they pay in the upper salary range).

The Combined Course features the same components as an on-site course and results in the same 120-hour TEFL/TESOL certificate just like the on-site training. The course comes with full career-support services for life.
